**HTML5, CSS, Tailwind CSS, JQuery, Bootstrap, ReactJS**

**Data Structures, Algorithms, OOPs, SQL, DBMS, Git, GitHub**

## EXPERIENCE

Downpour Consultancy Services
**Frontend Developer Intern**

📅   May 2023 – July 2023

- Designing and developing client-side software and applications using HTML5, CSS, and Java Script
- Collaborated with designers and backend developers to ensure seamless integration of frontend and backend functionality .

AMU RoboClub

- Gained hands-on experience with robotics part and software, including arduino, microcontrollers, sensors, and programming languages such as C++ and Python

## PROJECTS

**Portfolio  LINK**
Created a responsive portfolio using HTML and CSS, showcasing my projects and skills.
Features a clean design, custom animations, and cross-browser compatibility.

**Spotify Clone LINK**

Developed a functional Spotify clone using HTML, CSS, and JavaScript. Features include:

- **User Interface**: Created a responsive, visually appealing UI similar to Spotify's design.
- **Music Playback**: Implemented audio playback controls and playlist functionality.
- **Dynamic Content**: Utilized JavaScript to handle dynamic content and user interactions.

**Amazon Front Page Clone LINK**

**Gmail Front Page**

**Student Database Project**
Developed a student database management system using C++ with file handling. Enabled efficient storage, retrieval, and modification of student records.

## DECLARATION

I hereby declare that all the information furnished above is Is true to the best of my belief.
